## PLAY-IT-COLLECTION

**A TIMELESS DESIGN AT AN AFFORDABLE PRICE?  
WITH OUR PLAY-IT COLLECTION YOU ARE DEFINITELY IN THE RIGHT PLACE!**

The various types of cabinets, each with accompanying ceramic, mineral marble or top solid washbasins provide you with a multitude of possible combinations.

Using the broad colour pallet – from solid colours to various kinds of wood textures –, a furniture combination to suit all tastes can be created, ranging from units with timeless pure lines to furniture with a warmer and richer appearance.

No bathroom is complete without a suitable mirror panel or matching mirror cabinet with double sided mirrored doors, combined with a chrome LED lighting fixture or our sophisticated and performant LED canopy.

Our additional accessories such as half-height or tall sectional cabinets for additional storage, the splendid wooden drawer divider, chrome towel holder and the clever combibox with socket and USB charger make sure you will enjoy your relaxing bathroom.

Discover our Play-it collection and make your own unique combination to create the bathroom of your dreams!

You can add different drawer dividers up to a maximum width of:  
**front width - 124 mm.**  
 For example: cabinet width 1000 mm  
 → useful inner drawer space/inner drawer = 1000 - 124 = 876 mm.

You can upgrade this drawer with:

- up to 7 drawer dividers type 2 (width 110 mm) <drawers without siphon cutout> or
- 1 drawer divider type 4 (width 136 mm) + 6 drawer dividers type 2 (width 110 mm) <drawers without siphon cutout> or
- 1 drawer divider type 1 (width 400 mm - drawer with siphon cutout) + left 1 drawer divider type 4 (width 136 mm) + right 2 drawer dividers type 2 (width 110 mm).

Drawer divider colour: walnut wood

# MATERIALS

## WASHBASIN

### MINERAL MARBLE

Mineral marble is a seamlessly finished conglomerate of high-quality minerals, dolomite and polyester resins. The glossy white gelcoat surface finish protects the basin from sunlight and wear. This type of wash basin is very hygienic and easy to clean with water and soap. Small scratches or scrapes can be removed.

For more product information and maintenance tips, please visit: [www.alke.be](http://www.alke.be).

### TOP SOLID

Top solid is produced in the same way as mineral marble. In this case, however, the surface finish consists of a matt white gelcoat. This type of wash basin therefore has comparable product properties as those of mineral marble.

Small scratches or scrapes can not be removed in this material.

Top solid also exists in an upgrade version "solid surface", available on request.

For more product information and maintenance tips, please visit: [www.alke.be](http://www.alke.be).

### CERAMIC

Ceramic is a seamlessly finished and 100% natural product made from ceramic clay fired with a glaze coating. The glossy white finish protects the wash basin from intensive use. Ceramic washbasin tops have a long life, are colourfast, heat- and scratch-resistant and very low maintenance. Due to the nature of the production process, ceramic washbasins are subject to small dimensional tolerances. The use of abrasives is not recommended.

For more product information and maintenance tips, please visit: [www.alke.be](http://www.alke.be).

## BASE UNIT AND SECTIONAL CABINET

### MELAMINE

The front and carcass material is made from the compression of layers of paper impregnated with melamine resin on an MDF or particle board based layer. A process involving pressure and heat causes the irreversible curing of the impregnated layers and the bonding with the base panel material.

The pressing results in a scratch-, impact- and abrasion-resistant surface that is optically almost seamless.
